

A TRIMBLE BUNDLE AT AN UNBEATABLE PRICE

The ultra-rugged Trimble® SPS986 GNSS
Smart Antenna, SPS855 base station
and the controller of your choice

Building Corners

Traffic Lanes

Utility Flow Lines

Water Ponds

Unmatched Performance

- **Ultra-rugged** – The most rugged receiver Trimble has ever built. GNSS receiver, antenna, and battery in one unit with ultra-rugged housing built to withstand harsh construction site conditions
- **Integrated IMU for eBubble and tilt compensation** – Use the ebubble to see the verticality of the receiver in the software instead of on the rod bubble; work more efficiently and effectively, especially in low light
- **Supports all GNSS constellations** – Trimble ProPoint GNSS technology uses all available signals to provide survey-grade positioning in many areas where other GNSS systems either can't provide a solution at all or produce unreliable error estimates
- **Utilize CenterPoint RTX high-accuracy corrections via satellite or cellular/IP**

Your Choice of Four Trimble Connected Controllers

SITECH MID-CANADA

SITECHMIDCANADA.COM

This powerful limited-time* offer includes:

- Trimble Siteworks/SCS900 Software
- SPS855 base station with full constellations
- Premium Rover with tilt compensation
- Pole
- Tripod
- Bracket for controller

Trimble SPS855 Base Station:

- As a permanent or semi-permanent base station, the Trimble SPS855 GNSS provides GNSS corrections for site measurements and machine control.
- A single button push using autobase technology allows for a rapid daily base station setup.

Trimble SPS986 GNSS Smart Antenna with tilt compensation:

Using the SPS986, construction surveyors can capture accurate points without levelling the pole while standing, walking or driving the site in a vehicle. Full GNSS tilt compensation makes Siteworks easier to learn for beginners and saves significant time for more experienced surveyors.

- Easily and safely survey hard to reach areas
- Faster measurements
- More efficient stake-outs
- Minimal magnetic interference

Various Bundles with the Trimble SPS986 GNSS Smart Antenna			
 Trimble TDC600 Handheld	 Panasonic Toughpad FZ-M1	 Trimble T7 Tablet	 Trimble TSC7 Controller
<p>The 6-inch Trimble TDC600 Handheld runs Android 8 and offers full Siteworks functionality from a device small enough to fit in your pocket.</p>	<p>Choose between the Trimble T7 Tablet and Panasonic Toughpad FZ-M1 based on price point.</p> <ul style="list-style-type: none"> • Long-life batteries • Sunlight readable display • Microsoft® Windows® 10 • Hot-swappable long-life lithium-ion batteries 		<p>With the Trimble TSC7 Controller, its bigger screen, powerful processing power and Microsoft® Windows® 10 – you are carrying the potential of a laptop, right in the palm of your hand.</p> <ul style="list-style-type: none"> • 7-inch sunlight readable display • Back lit keyboard • Hot-swappable long-life lithium-ion batteries
